

FAB Forever Active Boost

Description and Purpose

We all know how exhausting it can be living an active, busy lifestyle – from job deadlines and school pickups to football practice, grocery shopping and household chores. How can anyone have enough energy for that all the time? Forever has found a solution to help pick you up – FAB Forever Active Boost™ Energy Drink.

FAB's 'boost' is different from other energy drinks because it gives you both immediate and long-term energy. The immediate boost comes from guarana, a natural ingredient that is very popular in Brazil, while the long-term energy is powered by ADX7 technology: a proprietary blend of adaptogenic herbs, vitamins, aminos and electrolytes, developed by a leading Russian sports scientist and researcher. ADX7 has helped Russian track and field athletes win over 130 medals in Olympic competitions!

FAB is a quick, refreshing way to stay energised and alert all day long. And it revitalises you so you have the endurance and concentration to do all the things you have to do, plus the things you want to do.

At a glance...

- Guarana provides a natural boost
- Powered by a proprietary blend of adaptogenic herbs
- Only 100 calories per can
